A two days workshop on “Research Methodology and IBM SPSS 22” was organized by Green Heaven Institute of Management and Research in collaboration with IBM SPSS South Asia Private Limited, Bangalore on 7th and 8th Feb 2014. The workshop was attended by a large number of delegates which included MBA Students, Research Scholars, Academicians, Corporates Executives and Business Consultants.

Dr S. Maheshwaran, an expert on SPSS was deputed by IBM SPSS Bangalore, to be the resource person and conduct the workshop. Dr S. Maheshwaran, to his credit, has a large number of research works conducted on a variety of organizations of different sizes. The first day of the workshop was spent on learning the basics of business research and its tools. The second day was spent on learning practical applications of the various SPSS Tools available in SPSS 22, and interpretation of the results. The participants were delighted to learn new techniques of business research and expressed complete satisfaction on the quality of the workshop.
