Industrial Visit to Maharashtra Enviro Power Ltd.

An Industrial Visit to Maharashtra Enviro Power Limited at Butibori, Nagpur was organized on 7th May 2015 for Semester-II students. Students were accompanied by 3 faculty members namely Dr. Pramod Thakur, Prof Avinash Bhowate and Prof. Mubina Saifee, Bus departed at 10:15AM from College and reached the Industry at 11:15AM. After completing the entry level formalities at the gate, we were taken to the corridor of their office premises. We were welcomed by Mr. Hemant Kale, Dy. Manager (Marketing), Maharashtra Enviro Power Limited (MEPL). We were briefed about the importance of waste management and over all working of the complete process of disposal of the hazardous waste received from different industries to Maharashtra Enviro Power Ltd by Mr. Yogesh Dhokey, Asst. Manager, Quality Control, MEPL, Nagpur.

After the briefing, we were taken to the storage area and Mr. Yogesh Dhokey explained the process of storage and precautions taken during storage of the waste material which come for disposal.

We were then taken to the plant where hazardous industrial wastes are being disposed through the process of incineration. After that we were taken to the Land Fill through MEPL, transport where all the technicalities about the Land Fill was very well explained by Mr. Hemant Kale and Mr. Yogesh Dhokey.

At last, visit to their laboratory was been arranged for which three batches of equal number of students were formed and briefed about the working of the Laboratory. One day Industrial visit concluded by the end of college timings.
