Purpose of the Policy Handbook

Green Heaven Institute Management & Research welcomes you. This handbook was developed to provide you with an information resource for common questions and concerns. The information in this handbook is important to all of our employees. Read the manual now and keep it in a convenient place. You will want to refer to your handbook when you have questions about institute policies and benefits.

Naturally, you won't find answers to all your questions in the handbook. It is neither a law book nor a catalog of Human Resource policies. In preparing this handbook, we have not tried to give you the minute details of each policy. Instead, we have attempted to present a summary of some of the most important policies. No written statement, no matter how complete, can be a substitute for direct daily contact with your immediate supervisor.

Throughout your handbook, you will be able to check the complete information on employee policies and benefits. This advice is continuously repeated because its importance can't be overemphasized.

If you have questions or concerns about the policies outlined here, you should contact your Principal/ Director or Human Resource Cell. *Circumstances will obviously require that the policies, practices and benefits described in the handbook change from time to time. The institute reserves the right to amend, modify, rescind, delete, supplement or add to the provisions of this handbook as it deems appropriate from time to time in its sole and absolute discretion after obtaining due approval from the Managing body. Institute will attempt to provide you with notification of any other changes as they occur.*

Foreword

Our employee handbook is a tool to help & promote a co-operative as well as healthy atmosphere, to spell out policies relative to hours, wages, and condition of employment and to provide for the administration of these policies in the interests of all concerned, in keeping with conditions in our area and institute.

We are presenting this employee handbook because we feel that if you understand basically what is expected from you, and what you may expect from the institute, we shall have an organization which better meets the needs of our employees and students.

The statements as set forth in this book have not been arbitrarily established. Each of them has a sound background based on the experiences of this institute. Employees have given many suggestions and we will further welcome suggestions from them that will aid in maintaining a constructive and harmonious relationship.

Our single most **common goal** must be **to work together and to meet the needs of our Organization, which will help in reaching desired individual and organizational goals.**_____

Scope

This policy applies to recruitment and placement, promotion, training, transfer, retention, rate of pay and all other details and conditions of employment.

12. Do S & Don’t

- ▶ Organizational User IDs, websites and e-mail accounts may only be used for organizationally sanctioned Communications

- ▶ Use of Internet/intranet/e-mail/instant messaging may be subject to monitoring for reasons of security and network management and users may have their usage of these resources subjected to limitations by the Organization.
- ▶ Users may not visit Internet sites that contain obscene, hateful or other objectionable material, shall not attempt to bypass Organizational surf control technology and shall not make or post indecent remarks, proposals or materials on the Internet.
- ▶ Users shall not solicit e-mails that are unrelated to business activity or which are for personal gain, shall not send or receive any material which is obscene or defamatory or which is intended to annoy, harass or intimidate another person and shall not present personal opinions as those of the institute and the use of organizational e-mail facilities.
- ▶ Users may not upload, download or otherwise transmit commercial software or any copyrighted materials belonging to the institute or any third parties, may not reveal or publicize confidential information, and will not send confidential e-mails without the level of protection required.
- ▶ Users may not download software from the Internet or execute or accept any software programs or other code on the Internet unless it is in accordance with the Organization's policies and procedures.
- ▶ Users are not supposed to download bandwidth intensive content such as streaming video and MP3 music files, sharing digital photographs, etc.
- ▶ Green Heaven Institute of Management & Research reserves the right to audit networks and systems on a periodic basis to ensure compliance with this policy
- ▶ Keep passwords secure and do not share accounts. Authorized users are responsible for security of their passwords and accounts. System-level passwords should be changed every 42 days.
- ▶ All PC's, laptops, and workstations should be secured with a password-protected screensaver with the automatic activation feature set at ten minutes or less, or by logging off when the host will be unattended.

- ▶ Because information contained on portable computers is especially vulnerable, special care should be exercised. Protect laptop's security.
- ▶ Postings by employees from a Green Heaven Institute of Management & Research e-mail address to newsgroups should contain a disclaimer string that the opinion expressed are strictly their own and not necessarily those of Green Heaven Institute of Management & Research, unless posting is made in the course of business duties.
- ▶ All hosts used by the employee that are connected to the Green Heaven Institute of Management & Research.
- ▶ Internet/intranet/extranet, whether owned by the employee or Green Heaven Institute of Management & Research, shall be continually executing approved virus-scanning software with a current virus database, unless overridden by departmental or group policy.
- ▶ Employees must use extreme caution when opening e-mail attachments received from unknown senders; these may contain viruses, e-mail bombs, or Trojan horse code.
- ▶ Any form of harassment via e-mail, telephone, or paging, either through language, frequency, or size of messages is not allowed
- ▶ Unauthorized use or forging of e-mail header information is not acceptable
- ▶ Escalate any incident or suspicious activity to Information Security Cell.
- ▶ Delete any message that refers to groups or organizations that you are not a part of Green Heaven Institute of Management & Research.
- ▶ Create a password for your files in order to protect file sharing activities.
- ▶ Regularly update Operating System, web browser, and other major software, using the manufacturers' update features, preferably using the auto update functionality. (Consult System Administrator for this activity)
- ▶ Save attachments to disk before opening them. Symantec Antivirus 'Auto-Protect' will automatically scan your attachments if you save them to disk.
- ▶ Don't write down your password. Especially on a Post-It note stuck to your computer! Or don't give out your password to anyone, whether you know them or

not. & don't select the "Remember My Password" option. Many applications do not store them securely.

- ▶ Don't purchase anything promoted in a SPAM message. Even if the offer isn't a scam, you are only helping to finance and encourage SPAM.
- ▶ Don't reply to SPAM or click on its "unsubscribe" link. That only informs the sender that your e-mail address is valid.
- ▶ Don't create common passwords such as your name, credit card number, debit card PIN number, etc.
- ▶ Don't leave your laptop unattended, even for a few minutes.
- ▶ Don't reply to e-mail(s) requesting financial or personal information.
- ▶ Don't install or use pirated copies of software.
- ▶ Don't install P2P file sharing programs which can increase the vulnerability of your system.
- ▶ Don't set your e-mail program to "auto-open" attachments.
- ▶ Don't run any internet servers. Running web, mail, ftp (etc) servers from your desktop leaves your data vulnerable
